

## **Benchmarking Roundtable 3-day Bootcamp**

### **Topic: Stakeholder Management**

External stakeholder Identification, analysis of touch points and associated interactions, prioritization, engagement, collaboration, communication, relationship management, satisfaction, dispute resolution, documentation, communication, technology, audit, reporting, governance, regulation and a host of other factors need to be taken into account for effective Stakeholder Management. What is your organizational approach to Stakeholder Management? Where does Stakeholder Management responsibility reside in your organization? How do you engage with stakeholders? How do you collaborate with stakeholders? What is the role of executive management in Stakeholder Management? How do you align Stakeholder Management to the organizational strategy?
