

Benchmarking Roundtable 3-day Bootcamp

Topic: Supply Chain Management (SCM)

Background & Rationale:

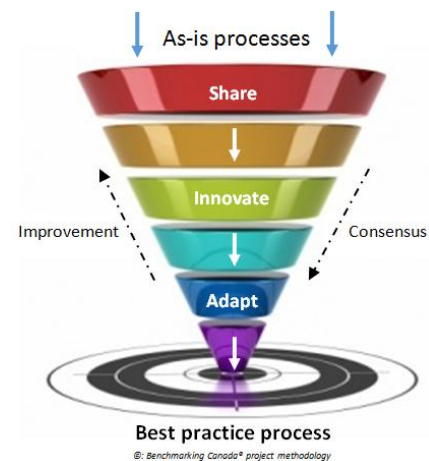

Effective supply chain management is essential to fulfillment of the customer promise. From provision of fresh goods on the grocery store shelves, medicines in pharmacies, gas at the pump stations, cash in ATM machines, concrete at the construction sites, clothing at retailers and literally everything else around us we are dependent on SCM. Multiple factors are at play and need to work in perfect harmony to make it all fall in place. With the evolving technological innovations, SCM is becoming increasingly integrated and automated, with its own set of challenges. Do you have documented SCM procedures? Is SCM automated and is the technology platform integrated with other relevant ERP applications? What are your organizational SCM challenges?

Join the *Supply Chain Management Benchmarking Roundtable* bootcamp and enhance the process efficiency, manage suppliers and contractors effectively.
